The Hygiene Company Announces the Next Generation of Hygiene Monitor

Basildon, Essex 19/04/2013 – Grange Europe Ltd, a leading manufacturer of Hygiene Products including the WIPEPOD®, today announces the introduction of the new generation in the Hygiene Monitor range. Featuring all the benefits of the current range, the new generation also allows users to set up the monitor remotely via a secure website. Coupled with an SMS function which allows managers to check the latest data wherever they are in the world, the new Hygiene Monitor signifies a marked improvement in the setup of monitors.

“The new Hygiene Monitor follows a significant investment in the new technology that makes the changes possible,” said Jonathan Bradford, Grange Europe Managing Director. “We are particularly pleased with the feedback we have received so far from our customers during the testing phase, especially since all our improvements come from customer feedback. The new Hygiene Monitor will be especially useful for our larger customers who purchase several monitors as it allows for easier setup”.

The Hygiene Monitor is the number one choice for checking compliance in washrooms. The Hygiene Monitor is customisable to specific requirements: “Where possible, we endeavour to create products to customers’ specific requirements – you are then not buying an ‘off the shelf’ item, but a unique one. Tell us the shape, size, finished colour, specific text or wording and logos to be used, and we’ll do the rest,” says Jonathan.

Grange Europe Ltd t/a The Hygiene Company is a leading hygiene products supplier. They supply hygiene products including a range of wet wipes, wipe dispensers, antimicrobial soap, hand driers and hygiene monitors. For further information, contact Jonathan Bradford on 0845 370 0030.
