

Hygiene Monitor Quick Start Guide

For Professional Plus and Ultima

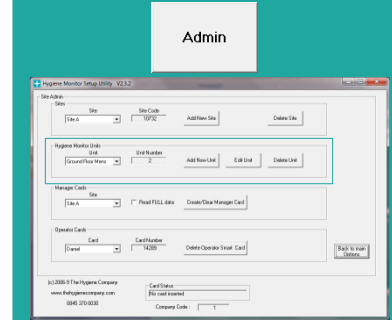

1. Install the Hygiene Monitor Software and Card Reader*

2. Add a new site

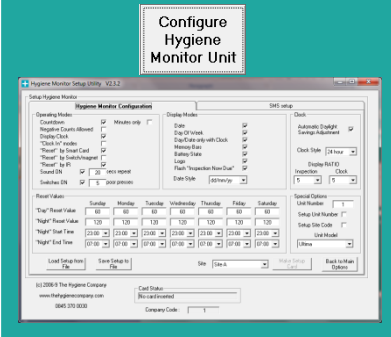

3. Add a new unit

4. Create your operator cards

Create or Change Operator Card

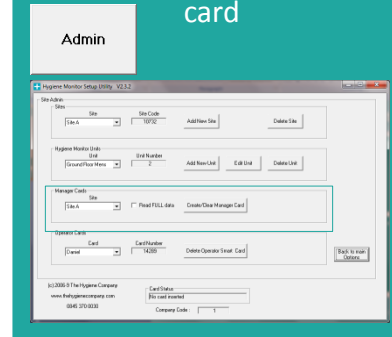

5. Configure your monitor

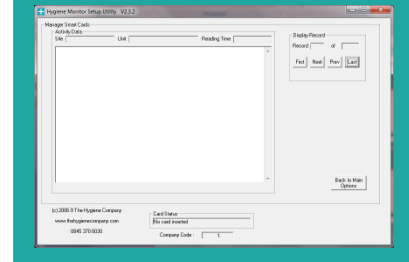

6. Insert the setup card into your monitor

7. Create a data download card

8. Check your cards are working correctly by downloading data

*You may need to seek the relevant permissions from your IT department. The Monitor programme may fail to install if you do not have administrator rights.

Your monitor is now setup and ready to use.
More detailed instructions are available in your User Guide.
